## **Nestlé Waters North America Announces Second Community Forum On Proposed McCloud Bottling Facility**

**McCloud, CA** – Nestlé Waters North America today announced that the second in a series of opportunities for the McCloud community to weigh-in on the company's revised project proposal in McCloud has been scheduled for February 18, 2009 at the McCloud Elementary School located at 332 Hamilton Way. The meeting will begin at 7:00 p.m.

“We look forward to this opportunity to provide the McCloud community with more details about our revised project proposal, and, more importantly to hearing feedback directly from the community on our proposal,” said Dave Palais, project manager.

This forum is open to the public and all members of the McCloud Community are welcome and encouraged to attend.

Joining Palais for the forum will be Brendan O'Rourke, Director of Natural Resources for Nestlé Waters North America. The evening will begin with a brief presentation on the components of the company's revised project proposal and provide community members the opportunity to provide direct feedback on the proposed project.

This is the second in a series of public forums on Nestlé Waters' proposed project in McCloud. The purpose of these meetings is to provide information about the company's project proposal to the community and to allow the community to give the company direct feedback on the various elements of the project.

The community's feedback, in conjunction with the additional scientific studies that will be conducted on the revised project, will be used shape the project proposal and develop a draft environmental impact report on the project.

Community members with questions regarding this meeting or the proposed project can contact a Nestlé Waters representative at 1-800-624-9376.
